

European Green Party/EFGP_{aisbl}
4th COUNCIL MEETING
Helsinki, 5-7th May 2006

Adopted resolution

The stimulation of a broad discussion in the member parties about the document on the future of Europe

In view of

- the relevance of this document for the future role of the greens in Europe,
- the importance of a broad support among the members of all parties for the decisions to be taken at the coming congress in Geneva,
- the general feeling that the future of Europe should be discussed in a larger forum than usual,

the 4th Council of the EGP

- expresses the opinion that a broad consultation of members of green parties represented in the congress about this document is very desirable,
- supports the intention of the committee and working group to deliver a draft text in June/July 2006 in order to enable this consultation,

and urges

- the committee to enable distribution by publication of the draft on the website of the EGP,
- the party boards and political bodies at regional/local levels to plan a discussion in their parties before the congress about the draft text with participation of their congress delegates and if possible with representatives of green parties from other countries.
